EDUCATION

Bachelor of Technology in Computer Science
Rajshree institute of management and technology, AKTU   **2021 - 2024**
- Overall CGPA **7.5**

DIPLOMA in Computer Science
Government Polytechnic Kashipur, UBTER   **2018 - 2021**
- Overall Percentage **77%**

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, SQL, Typescript, HTML, CSS.
- **Technologies:** Node.js, React.js, Express.js, Tailwind, Django, MongoDB, Dialogflow, Rest APIs, Prisma, Postgres, Machine Learning.
- **Development Tools:** VS Code, Postman, Git, GitHub, Cloudflare, Google Colab, AWS, NeonDB.
- **Soft Skills**: Effective Communication, Problem-solving, Collaborative Teamwork.

PROJECTS

CodeMate :: Code Live
- A **Gemini 1.5**-powered app to generate code snippets with explanations and notes.
- It keeps track of your previous queries and response code listed on the dashboard.
- Used **Express** for backend, **React** for frontend, **MongoDB** NoSql Database for text-based data and **Tailwind** for styling and Gemini API.

ScriptLife :: Code Live
- Web app for reading and sharing valuable information via blogs.
- Let users create new blogs and read insights shared by others, used by **5+** users.
- Used **Cloudflare workers** and **Hono.js** to create and deploy a fast and **serverless** scalable backend system.
- React.js(**Typescript**) and Tailwind for UI design and **NeonDB** for cloud database with **Prisma** ORM to handle database.

PayWay - Payments app :: Code Live
- Web app project for making payments scaled to 10 users.
- Used **Zod** for input validation and **JWTs** for managing sessions and securing API endpoints.
- Gives you a random initial balance and a list of users to further make transactions.
- Tech stack used: **Javascript, Express, React, MongoDB, Tailwind, Postman**.

Vendor Management System :: Code
- Solution for backend system using **Python Django** and Django **REST** Framework.
- Backend system for handling vendor profiles, track purchase orders.
- Get Calculated vendor performance metrics using **API endpoints** using **SQLite** database.

ADDITIONAL INFORMATIONS
- Certificate in Machine Learning with Python by UDEMY.
- Certification in React.js for beginners by GREAT LEARNING.
- 5 Star in Python on Hackerrank.
